

TTIC SCIENCE CLUB

There are little things in our life that will make us to give a very wide smile, Being TTIC students the smile is TTIC Science Club. Apart from being a club, we have achieved different things in short period of time. Our Club was established in 2073 BS, our senior brother and sister got huge number of problems but at last they came to be success that to form a club and contribute our well fascinated college. Since the beginning period, our motive is Achieve beyond Horizon. And, within these 3 years we have actually achieved something beyond the horizon. We organized National Level Visual Quiz for the first time in our Nepal. Not only that we have organized different sorts of programs that have contributed in different things. Well, there are a lot of things we have achieved, now, it's in your hand and we need you to handle all those types of circumstances.

Objectives:

To channelize the energies of students and make use of their skill and talent, with satisfy their instincts and urges and have their overall personality development.

Programs we organized

We have organized different programs. Our first program was National Level Visual Quiz season 1. A lot of schools from different places of Nepal had participated here. Than with new members in 2074, we organized Post Card Demonstration program for the first time in college and we organized Battle of presentation program. And then we organized National Level Visual Quiz Season 2. And again, in session of 2075, we started our club's program with Handicraft Competition and later on we organized multimedia public speaking program. Later half of the year, we organized the grand program of our club that was National Level Visual Quiz season 3
